

Velvet Chain, Little Sugar

It's the right time
For starting something
Are you playing around with me
Oh the night is winding down

Could you be thinking of something
That you don't wanna say out loud
Oh there's no more waiting now
It's time to get down

Hey, hey, hey
Little sugar
Hey, hey
I, I've got your sugar too
Hey, hey, hey
Little sugar

I could be the woman
That you dream of at night
I'm ever so lonely
You're ever so nice to me
I feel like I've known you for a thousand years

Come on baby
Come on baby

It's the right time
To make arrangements
Are you coming along with me
That got me no more waiting now
It's time to get down

Hey, hey, hey
Little sugar
Hey little sugar, I've got your sugar baby
Hey, hey
I, I've got your sugar too
I've got your sugar, sugar too
Hey, hey, hey
Little sugar
Little sugar, I've got your sugar baby

(Repeat)

It's time to get down
I'll be your bitch for you

Hey, hey, hey
Little sugar
