

# Vendetta Red, Suicide Party

I'm turning a deaf ear to your bloody ministries  
Save it for the afterlife honey  
Cause everybody knows the more we nurture  
Our perversions the more human we become

Sing children sing it to the sun  
Struck down, I hate what you've become  
Your comet catcher conned you baby  
Straight down you'll plummet to the earth

They finally caught the killer they found his skin beneath her nails  
Squeeze him hard enough and he'll confess  
We swore a solemn oath to never disobey  
But then he took our wives and kids away

Sing children sing it to the sun  
Struck down, I hate what you've become  
Your comet catcher conned you baby  
Straight down you'll plummet to the earth

Faith exposes us (ashamed of who we are)  
When they're cursing your name you'll be falling apart  
Faith exposes us (ashamed of who we are)  
When they're cursing your name you'll be falling apart

Sing children sing it to the sun  
Struck down, I hate what you've become  
Your comet catcher conned you, baby  
Straight down, you'll plummet to the earth
