Venom, Black Xmas

When the snow turns black I'll be back - I'll be here Between the blinking of an eye When the screams attack Welcome back - Cavalier Before the newborn starts to cry

And it's all in the eyes of a child Flaming star or the call of the wild

Black Xmas - Devils Eve The whispers in the breeze Black Xmas - Devil's wine The river bleeds in time

Where the red clouds chase That's the place - In a dream Across the suns hot blazing sky Where he hides his face In disgrace - For his queen He must choose the way she dies

And they say when his eyes turn to green He'll awake living sin never seen

Watches over you That's the clue - To believe An instant and you're hypnotised Watch his eyes look through False or true - To deceive You take his place you're crucified

Black Xmas - Devils Eve The whispers in the breeze Black Xmas - Devil's wine The river bleeds in time Black Xmas - Devil's wine Black Xmas
