

Venom, Parasite

There was a time when hunger was mine,you'd walk the line.
You sowed the seed, your making us need,your watching us bleed,you bastard!
We always felt you were a better friend,with your riches and your smiles,
You helped me keep the wolves from the door,
You filled our heads so full of,Lies!
We always felt you were a better friend,with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of,Lies!

Parasite!
Parasite!

Life was a ball and you took it all,
We took a fall,
You were the doubt
You won't bail us out,there's no use to shout,Your dying!
We always felt you were a better friend,with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of,Lies!
We always felt you were a better friend,with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of,Lies!

Parasite!

A toffee for the kiddies,sugar and spice,
Just wait a minute fella,your anything but nice!
We always felt you were a better friend,with your riches and your smiles,
You helped to keep the wolves from the door,
You filled our heads so full of,Lies,
[Repeat]

Parasite!
Parasite!
Parasite!
Parasite!
