

Venom, Swarm

The blood that fell is drawn by my hand
Your heart and soul lie wet on desert sand
Your empty shell is mine to take
and those who witness let them be
the ones to quake

You cannot touch me, we are the one
You cannot touch me, i am legion

As night follows day so your soul will drift away
We are the one you came to lay your life before
You will die so i can live
All hope for you is gone there's
nothing left to grieve

You cannot touch me, we are the one
You cannot touch me, i am legion

You cannot touch me, we are the one
You cannot touch me for i am legion
