Venom, Vengeance

You never know when it will come Just like a bullet - from a gun You lie awake - you sweat & amp; shake & amp; may no lord have mercy on your soul

Take him down Vengeance - will be mine

And as you sow - shall you reap You pray to lords your soul to keep You have a lie - no alibis You hang your head in shame & you ask -Why! - why!

Vengeance - vengeance Vengeance - will be mine

You tell the world that black is white No backing down your always right You think your it - your full of shit Why don't you just lie down & Damp; die

Fuck you

Vengeance - will be mine Vengeance - is mine
