

Vent, One Small Choice

Sometimes
I wonder how it all would be
If only one thing happened differently
And time will tell what will become of us
One small choice
Just one small choice

And what if I had never decided this?
Would I be here?
Or be gone?
And all I've ever wanted
Is just to see how it would be
One small choice

Sometimes
I wonder what it's like to fly
So easy
One small choice could end my life
I'd take the second chance to make things right
One small choice
Just one small choice is all it takes

Need it
Feed it
Can't re-seed it, why?
