

Venus, I Am The Ocean

I am the ocean
The sky is my shelter
I am the ocean
The wind is my mother

I am the water
And I am the foam
Coming and leaving
Caressing your bones

Caressing your bones

I will make you breath
You will make me howl
I will kiss your knees
You will bring me hope
I will make you breath
You will make me howl
I will kiss your knees
You will bring me love

The storm makes me call out
Thousands of cries
The sun makes me roll back
And you watch the sky

And you watch the sky

I will make you breath
You will make me howl
I will kiss your knees
You will bring me hope
I will make you breath
You will make me howl
I will kiss your knees
You will bring me love
