

# Venus, Monster

Spiders are jumping into the light  
Spiders on my skin, white night  
Some ice-cold whisky flows in my brain  
Deeper and deeper, cold are in my veins

This is my cell where I used to walk  
This is my hell, well it's full of smoke  
I saw the devil, I met a friend  
I felt evil breathing at the end

I am a monster, I am a freak, I am Jesus, I am a creep  
I am the father, I am the sun, I am the healer, I am the gun

There goes a night train  
Right to nowhere  
Tied to my ankles  
Black ruby chains

Falling from the ceiling  
Running on the floor  
Steeling my anguish  
Breaking my door

Am I a loner, am I so cold  
I need a lover, let's go home  
Some ice-cold whisky flows in my brain  
Deeper and deeper, cold are in my veins

I am a monster, I am a freak, I am Jesus, I am a creep  
I am the father, I am the sun, I am the healer, I am the gun

(Only on the demo :  
Can't you see the monster that (grows up inside ?)  
Can't you see the monster that ...)

I am the gun  
I am the gun  
I am the gun
