

Versailles, These Eyes

In my journey to the quiet place,
I saw this blinding light in my face,
I saw you I saw you I did,
I saw these eyes.

(I saw these eyes,
Sometimes I lie sometimes I cry.)

I hope I get there in time,
I hope that everything is fine,
And everyone is there,
And I'm not alone in despair.

Rephrase

I waited , I waited for you,
But you just didn't come through,
And now I'm here all by myself,
All by myself.

Rephrase

And you know you've been waiting your whole life so go.
