

# Versus, a heart is a diamond

Everytime you try to run away  
someones there convincing you to stay  
Youre just gonna bury your heart in the ground,  
like a diamond

Everyone is looking for answers to  
questions they forgot to ask you  
Youre your just gonna bury your heart in the ground,  
like a diamond

Dig it up and then come back to me  
We can make it work, with a little efficacy???  
dont forget, dont regret the secret you told me  
A heart is a diamond til you set it free

Everyone is looking at you for a sign  
its hard enough to walk in a straight line  
youre just gonna bury your heart in the ground,  
like a diamond

Do you ever feel like youre too old  
To replace the memories that you sold  
Tell me all the stories that you never told,  
told anyone

Dig it up and then come back to me  
We can make it work, with a little efficacy????  
dont forget, dont regret the secret you told me  
A heart is a diamond til you set it free

This memory could last a lifetime  
You can just sit there by yourself, silent  
A heart is a diamond until you set it free.

Play that song over and over again  
dont pretend you didnt like it back then  
youre just gonna bury your heart in the ground  
like a diamond

when you know your heart is big enough  
maybe just let it come to a stop  
are you gonna bury your heart in the ground  
until its dark???????
