

# Vertical Horizon, Fall From The Sun

Look at me, I'm an automatic  
Look at me, I'm magnetic  
Look at me, I'm careful not to let it show  
Look at me  
Look at me, I'm an aeroplane  
Look at me, I'm so in vain  
Look at me, I'm flying high and cracking up  
Look at me

It's just another disaster  
The way I come undone  
Wish I could run away faster  
Fall from the sun

Look at me, I'm your neighbor  
Look at me, I'm your savior  
Look at me, I'm new to town, can you help me out  
Look at me

It's just another disaster  
The way I come undone  
Wish I could run away faster  
Fall from the sun

It's just another disaster  
The colors fade to one  
Wish I could make my way past her  
Fall from the sun

Look at me, I'm where the wind blows  
Look at me, I'm in the window  
Look at me, I'm going up, can you pull me down?  
Look at me

It's just another disaster  
The way I come undone  
Wish I could run away faster  
Fall from the sun  
It's just another disaster  
The colors fade to one  
Wish I could make my way past her  
Fall from the sun
