Vertical Horizon, Inside

We're all lost
We're all found
We're all the same
Just one heart
Beats in us
With different names
Just one heart
With different names

Chorus:
Hold me inside you
'Cause I wanna be inside you
Inside you

Take this hand
Lift me up
Into your sky
Hold me here
It's just you and me
'Cause you make me fly
Oh, you make me fly

Chorus repeat

We're all lost
We're all found
We're all the same

Chorus repeat

Hold me x3
Inside of you

Hold me x3
Inside of you

Oh, inside you

Oh inside you
