

Vertical Horizon, One Of You

Breathe in the water
Drown in the sky
Hide high above her
While I'm floating through your eyes

Hold me in motion
Still within your sun
Under this ocean
As the world melts into one

And I'm
Hangin' on
To all that I hold dear
And I'm
Lettin' go
Of all of my fear
Hangin' on
To every single one of you

See on a darkness
Blind in the light
Deep in this forest
'Till we leave this endless night

And I'm
Hangin' on
To all that I hold dear
And I'm
Lettin' go
Of all of my fear
Hangin' on
To every single one of you

Go somewhere better
Go to the sea
Walk through the desert
'Till your love flows over me

And I'm
Hangin' on
To all that I hold dear
And I'm
Lettin' go
Of all of my fear
Hangin' on
To every single one of you
To every single one of you
To every single one, every single one of you
