Vertical Horizon, One Of You

Breathe in the water Drown in the sky Hide high above her While I'm floating through your eyes

Hold me in motion Still within your sun Under this ocean As the world melts into one

And I'm Hangin' on To all that I hold dear And I'm Lettin' go Of all of my fear Hangin' on To every single one of you

See on a darkness Blind in the light Deep in this forest 'Till we leave this endless night

And I'm Hangin' on To all that I hold dear And I'm Lettin' go Of all of my fear Hangin' on To every single one of you

Go somewhere better Go to the sea Walk through the desert 'Till your love flows over me

And I'm Hangin' on To all that I hold dear And I'm Lettin' go Of all of my fear Hangin' on To every single one of you To every single one of you To every single one, every single one of you
