

Vex Red, Sleep Does Nothing For You

Thoughts that stay trapped inside my spirit
Helps me to recognise I am
Nothing like you believe
Why do you want to question me constantly?

I'm different to you

Burn my world down
Blacken all I am
You let me down
You are no better than me

Should I be more like you?
But we tried that before
I still found my own way home
I still felt I was alone in here

Burn my world down
Blacken all I am
You let me down
You are no better than me (x2)

(Sample - voices)

I want to be heard and missed
I want to be loved be kissed
I want to be foetal
I wish I could be moulded to fit

You said you'd help me (x6)
