

# Vex Red, Sleep Does Nothing For You

Thoughts that stay trapped inside my spirit  
Helps me to recognise I am  
Nothing like you believe  
Why do you want to question me constantly?

I'm different to you

Burn my world down  
Blacken all I am  
You let me down  
You are no better than me

Should I be more like you?  
But we tried that before  
I still found my own way home  
I still felt I was alone in here

Burn my world down  
Blacken all I am  
You let me down  
You are no better than me (x2)

(Sample - voices)

I want to be heard and missed  
I want to be loved be kissed  
I want to be foetal  
I wish I could be moulded to fit

You said you'd help me (x6)
