

Vex Red, Start With A Strong And Persistant Des

I need some time to disinfect,
To purify what you have left,
It's all i ever claimed to be,
You ripped and fell away from me

But they said "it's alright" "you're alright"
I wish they knew what you have done.
No. You killed it why?
You hate yourself. No. You killed it.
Why? Why?

Cut you down.

I trusted you, you'd never lie,
I need some time to purify,
I wish they knew,
I wished they'd cut you down.

You are the pain, you are the trust, you are the hate.
