

Victims Family, Homophobia

"i just heard this song, caught the last few words,
it's all 'bout hating fags, man it was f**king rad!"
what did it mean?

why did you agree?

you're just a closet queen

and you're not impressing me

"no i'm f**king serious, it was really cool!

i think i can remember and now i'm gonna sing it
for you"

no, i don't wanna hear it

your head is up your ass

you must be insecure, why don't you tell me
about your past?

homophobia is a fear that arises out of insecurity

of one's own sexuality

exacerbated by a society

that looks upon sex as a commodity

and sets standards of masculinity and femininity
