

# Victoria Beckham, Come Together

Hey hey baby, you're driving me crazy  
Let's get together, stay together maybe  
Just for the night, forever seems crazy  
We can do whatever, let's just come together baby

Excuse me baby listen  
But I got a proposition  
Involving me and you  
And the love that I've been missing  
Don't be afraid  
Or attempt to walk away  
Or intimidated by the way  
I am phrasing what I'm saying

I'm the kind of girl who know what she wants  
But are you the kind of guy who can give what I want  
Wait before you answer, stop and throw your hands up  
This is my party, and you're the private dancer

Hey hey baby, you're driving me crazy  
Let's get together, stay together maybe  
Just for the night, forever seems crazy  
We can do whatever, let's just come together baby

Hey hey baby, you're driving me crazy  
Let's get together, stay together maybe  
Just for the night, forever seems crazy  
We can do whatever, let's just come together baby
