

VICTORIA, Bloom

Been with her for ages
She became a stranger mm

Tried to find her way back,
One or twice she relapsed,
Back to bad behaviour

Now I'm looking in the mirror,
And still don't recognise her but I

Think she will be alright,
Still puts up a good fight,
We are getting closer

Where'd you go?
Your sister's been calling,
Everyone's wondering,
Why won't you just pick up the phone?

Gloomy November,
Then heartbreak December,
Thought I was a lost cause,
Look at me now.

In the middle of the night, I bloom
Feeling greater than ever brand new,
You left a crack inside the walls of my room,
So the sun's been getting through

Yeah it's been lonely as hell,
Cause I kept losing myself
But I'm oh so over it,

Now I dance in the rain,
So glad I found me again
Yeah In the middle of the night I bloom

They set me up for failure,
Keep saying just get out there

But I don't need others issues,
Just a waste of tissues,
So I do myself a favor

Where'd you go?
Your friend's have been calling,
Everyone's wondering,
Why won't you just go say hello?

No-date November,
Self-love December,
Almost can't believe,
How great It feels now

In the middle of the night, I bloom
Feeling greater than ever brand new,
You left a crack inside the walls of my room,
So the sun's been getting through

Yeah it's been lonely as hell,
Cause I kept losing myself
But I'm oh so over it,

Now I dance in the rain,

So glad I found me again
Yeah In the middle of the night I bloom

In the middle of the night, down the road of change
By the troubled waters and old mistakes,
The light breaks through and the clouds just fade away

In the middle of the night, I bloom
Feeling greater than ever brand new,
You left a crack inside the walls of my room,
So the sun's been getting through

Yeah it's been lonely as hell,
Cause I kept losing myself
But I'm oh so over it,

Now I dance in the rain,
So glad I found me again
Yeah In the middle of the night I bloom
