

Victory At Sea, No Reason To Stay

what are you gonna do with all your lonely letters?
why don't you pack them up and send them all to me
instead of sitting around and thinking what could be better
don't you kinda wonder what i've got up my sleeve
and while you sit around like a deer caught in the headlights
1500 miles i could do it in a day
so take your undecided visions
put them in the gas tank - overdrive- do it in a day
i'm living on sunshine
my baby's gone and died
lost my heart in a bottle of wine
i mourned and then i cried
i'm living on moon light
it's nice to see you in my dreams we dance all night
when i wake up - i know you'll be gone and that's alright
cause i have mourned and i have cried...
...i've got no reason to stay
