Vigil, I Love You Equinox

And when she moves I'm telling you she's great she moves like clockwork Now you can set your watch by her cycles cause she bleeds like clockwork She got intricate insides like a product of Geneva But I need her, yes I need her so need her so need her so She balances the days and the nights I watch her like a 9 to 5'er At night I always wind her

I love the moon at night I love you Equinox I love you Equinox I love you Equinox I love the moon at night

I am all yours
Walk around on all fours
Half a horse
I love the moon you see and the rough untrodden path it lights for me
So safe from the satyrs
And safe from the haters
They're the ones who walk on cloven hooves
Rivers go to seas when you smile out the corners of your mouth
Though I don't I know you know why

I love the moon at night
I love you Equinox
I love you Equinox, oh yeah
I love you Equinox
I love the moon at night

Hey, I love the moon at night "(I love you Equinox)"

"(I love you Equinox)"

"(I love you Equinox)"

Well, I love the moon at night "(I love you Equinox)"

"(I love you Equinox)"

Yeah, I love the moon at night "(I love you Equinox)"

"(I love you Equinox)"

I love I love I'm ready to love, yeah I love I love I'm ready to love, yeah I love I love I love I love I love I'm ready to love, yeah
