

Viki Gabor, Barbie

I wanna party friday night
I'm looking like a Barbie
oh na na yeah
feeling excited

all my girls all my girls all my girls
looking right behind me
oh yeah

I know that you see me
like the way you look at me
dance with me tonight

feeling high feeling low
I don't wanna be alone
you make me feel alive

I know that you want me
don't be shy to show it
look me in my eyes
take my breath away

I know that you want me
don't be shy to show it
like the way you say
I'm the only one
only one yeah yeah yeah
(I know I'm only one)
(I know I'm only one)

you make me lose my mind
I keep on trying oh
stop thinking about it
that all them girls
still looking at you

singing our favourite song
while we're driving down the road
dance with me tonight

feeling high feeling low
I don't wanna be alone
you make me feel alive oh

I know that you want me
don't be shy to show it
look me in my eyes
take my breath away

I know that you want me
don't be shy to show it
like the way you say
I'm the only one
only one yeah yeah yeah
(I'm the only one)
