

# Vile, Engulfing Horde

(Lyrics: Urteaga, Strong Music: Davis, Strong)

With great force they conquer viciously  
Sweeping through in hoards engulfing  
They make their way across the oceans  
Raining death upon this shallow land  
In great numbers delivering oblivion  
Broken bodies littering the earth  
Juggernauts laying waste upon the land

Black of mind - invading - tormentors  
They crucify - all those who rise before them  
Invading defilers!

Many days of misery upon them  
Dark skies, clouds of pain fill the air  
Those who die are devoured by rodents  
Those who live are torn apart  
Overwhelmed by millions  
Moving rapidly like the plague  
Leaving death in its wake  
Eternal decay.....

Black of mind - invading - tormentors  
They crucify - all those who rise before them

(solo AA)

They came to invade from the west  
To conquer and proclaim their name  
To take by force this land

Nothing will save them now  
Final damnation descends on their world  
Raping and killing in hoards  
Resistance is futile their fate has been sealed!!  
Destroy everything in their path  
Devour in masses, depleting the land  
Submit to the ones they now serve  
Shackled forever their freedom is lost.

Freedom is lost  
Shackled forever their freedom is lost
