

# Village People, Magic Night

When I'm with my friends then it's magic in the air-air  
Good vibrations always surround us  
Play some good music, the moment has left  
Happiness and joy's everywhere-ere-ere

So have a good a time, everyone have some fu-u-un  
People leave your problems behind you  
Come and sing along, join in on my song  
Sing about this magical ni-i-ight

Magic night - magic's in the music  
It's a magic night - we all need the music  
We can have a good time  
And enjoy all the magical vibes of this great -  
Magic night - good friends all around you  
It's a magic night - magic sure will find you  
So let's all try tonight to feel love  
Coming from inside each other

When I'm with my friends, friends with whom I can share-are-are  
All my ups and downs and between with  
When I'm with my boys, the moments are clear  
So much love is found in the air-air-air

Magic's when I come, together with my frie-ie-iends  
People from the world all around us  
Sharing good things we all love to share  
So much love is found in the air-air-air

Magic night - magic's in the music  
It's a magic night - we all need the music  
We can have a good time and enjoy all the magical vibes  
Of this great magic night - good friends all around you  
It's a magic night - magic sure will find you  
So let's all try tonight and feel love  
Coming from inside each other

Ahh-ahh, ahh-ahh-ahh - so much magi-ic  
Ahh-ahh, ahh-ahh-ahh - so much magi-i-i-i-ic  
Ahh-ahh, ahh-ahh-ahh - so much magi-ic

Magic night - magic's in the music  
It's a magic night - we all need the music  
We can have a good time  
And enjoy all the magical vibes of this great  
Magic night - good friends all around you
