

# Village People, The Sound Of The City

Listen to the sound of the city, listen to the sound of the town  
New York is the city of cities, New York is still wearing the crown  
Listen to the sound of the city, listen to the people I love  
Everyone is speaking your language, New York speaks in your native tongue

New York (New York) - we're skatin' down Broadway  
At midnight or midday - we do our own thing  
New York (New York) - a city with gusto  
New York is a big show - it's what's happening

Listen to the sound of the city, listen to the cars on the street  
New York is the fans of the Yankees, New York is a cop on the beat  
Listen to the sound of the city, listen to the steeple bells chime  
New York is a city of magic, New York is a hip state of mind

New York (New York) - the city of night life  
The city of bright lights - we're doin' our part  
New York (New York) - the city of fashion  
The city of passion - this town has a heart

Listen to the sound of the city, New York is the pulse of the world  
New York is the mecca that's Broadway, New York is the style on the girl  
Listen to the sound of the city, listen to the sound of my town  
You can take a ride on the tramway, hold your breath while your comin' down

New York (New York), perpetual motion  
From ocean to ocean - there's nothing compares  
New York (New York) - the parks and the playgrounds  
New York is the sweet sound - of children at play

Listen to the sound of the city, New York after dark is alive  
Uptown in the Bronx or in Harlem, New York is a city with pride  
Listen to the sound of the city, New York is both future and past  
New York is the city of music, New York is the city with class

Listen to the sound of the city, Listen to the sound of the town  
New York is the city of cities, New York is still wearing the crown  
Listen to the sound of the city, listen to the people I love  
Everyone is speaking your language, New York speaks in your native tongue
