

VINCE GILL, Let Her In

(Vince Gill)

I didn't know how love would come around
Walked right up to me and knocked me down
I dropped straight down on my knees
Asked my little girl - honey won't you help me please

[Chorus:]

Let her in
Let my heart feel love again
Let her in
Don't you know how long it's been
Let her in
Let come and be my friend
Baby please won't you let her in

I know it's hard for you since your mama's been gone
It must be strange to see me carry on
Honey just try to understand
It takes to the love of a woman to complete the heart of a man

[Chorus 3x]
