

VINCE GILL, When Love Finds You

(Vince Gill, Michael Omartian)

Love sure is something no one can explain
It can bring you such joy, it can bring you pain
And with every emotion, love puts us through
There's nothing you can say, when love finds you

Love is the power that makes your heart beat
It can make you move mountains, make you drop to your knees
When it finally hits you, you won't know what to do
There's nothin' you can say, when love finds you

[Chorus:]

Give it all you can give it, when your love comes around
If you put your heart in it, then it won't let you down
You'll find out it's true, baby, someday when love finds you

And when you least expect it, it will finally come true
There's nothing you can say when love finds you

[Chorus]

You'll find out it's true, baby, someday when love finds you
