

# Vince Neil, Skylar's Song

I'm starin' into the night  
Seen the times of my life with you  
With you it'll always be right  
My burnin' light  
Your star will shine tonight

Sky, you will always be mine  
I feel the angels by your side  
I thought there would always be time  
This love of mine  
For our love in a future time

(chorus)  
I feel you with me at night  
I sense your every move  
I know you hear me  
And everything I do

I dream of the things that you say  
And the times that we play  
Your love is the warmth of my day  
It'll never fade away

(chorus)

I swear my never-ending love to you  
Lord it's true a never-ending love to you

(chorus)

I do it for you

Love, my never-ending love for you (repeat)
