

# Vinnie Vincent Invasion, Breakout

(Vinnie Vincent)

We go it alone on the edge of the night  
There's no reward, no ending in sight  
Sweet destiny, she's waiting for me  
I'll find her walking down the streets of my dreams  
Her name is no mercy  
She's the calm before the storm  
Fighters have only but one tool  
We live by one golden rule  
We're gonna lay down our lives and survive  
And hear our battle cry:

CHORUS

Breakout--freedom calls me  
Breakout--no chains can hold me down  
Breakout--rip it up we make the laws and break it  
Breakout--sound of sirens  
Breakout--wailing as the night cries  
Breakout--band of gypsies--young blood on the rise  
We live by day and we love by night  
Across the badlands--angels in flight  
Nowhere to run, no the proud, they never hide  
Live by the gun--aces high, come on let it ride  
Yeah--they call us the hunted  
We've got nothing left to lose  
Wanted men, women, and losers unite  
We shed our tears for the sacrifice  
Well never surrender or take us alive  
You better hear our battle cry:

CHORUS

SOLO

REPEAT CHORUS
