

Vintage Vegas, Here I Am (feat. Natalia Siwiec &

There no words That I can tell you
That explain just how I feel
Coz everything seem like a movie
But I've got hope that is it real

I've never though that I love someone
Never dreamt that it was you
You're a sunshine and the sky
I know it's crazy but it's true

Here I Am with you
There is no one else who would do
Through the trouble times
The Shelter in my life
The air that I can breath
You all I need
I can't keep my eyes off you
Here I Am

Many times I've been so lonely
Then you step into my life
And you make me feel much stronger
Now, I know, I really know will survive

Here I Am with you
There is no one else who would do
Through the trouble times
The Shelter in my life
The air that I can breath
You all I need
I can't keep my eyes off you
Here I Am

Seen the heaven in your eyes
Seen the sun that makes me blind
I see everything I need when you're with me

Here I Am with you
There is no one else who would do
Through the trouble times
The Shelter in my life
The air that I can breath
You all I need
I can't keep my eyes off you
Here I Am
