

# Violent Delight, Alone

I need you  
To be here  
But I know you can't be here

When will we  
Slow forward  
I know we'll wait it over

You were meant to stay  
I never thought it would be this way  
Everything's so close to me  
So far away from you

There isn't ever a time without you when I don't feel alone  
Even when I pretend I know I have no one but you

Our sorrows  
You push me  
To be where eyes are watering

Why don't I  
Just wake up  
And find you gone forever

You were meant to stay  
I never thought it would be this way  
Everything's so close to me  
So far away from you

There isn't ever a time without you when I don't feel alone  
Even when I pretend I know I have no one but you

There isn't ever a time without you when I don't feel alone  
Even when I pretend I know I have no one but you
