

# Violent Femmes, Machine

I got a machine  
And I took over the world  
In one weekend  
I took over the world  
With my machine  
I did it because  
I was looking for a project  
And it was either  
Take over the world or learn French  
So I took over the world  
And next weekend  
I can learn French  
I got a machine  
And I took over the world  
But nothing changed  
That wouldn't be fair
