

Viored, The Beautiful Dead Song

This dark sky and the town which loses the color now.
If it waits for tomorrow A field of view is taken up.
Love is already burned out now. Long way [without] returning.
She laughed it for the way as solitary a merciless end.
The revelation of god. It is not doubtful.
The revelation of god. The heart is killed.
However, the holy way is repeated many times for peaceful.
A lot of feelings were crushed in the hand to defend the things, that I believe.
The revelation of god. It is not doubtful.
The revelation of god. The killed my self.
What by which it comes why is weakly transitory ?
Inside the world which collapses and goes.
It was able to leave what into this arm ?
The pain deprives of the meaning of existence.
She only wants to merely see tomorrow's dream now.
odayaka na mainichi wo nozomu nara kibou ya risou wo ushinatte mo
kitto nani mo kawarazu tada hibi wa sugite iku
hitsuyou sae mo ushinatte ...
The revelation of god. It is not doubtful.
The revelation of god. The killed my self.
What by which it comes why is weakly transitory ?
Inside the world which collapses and goes.
It was able to leave what into this arm ?
The pain deprives of the meaning of existence.
She only wants to merely see tomorrow's dream now.
An eye was closed. Just now.
