

# Viper, Moonlight

Lifestorm broke my anchors  
Like a wreck I've been  
Sea and sky were just one darkness  
Such a brilliant radiance you came

I'm alive, I'm alive  
Just by the light  
From your eyes

And I need you to be  
Like the heaven I seek  
But clouds showed me  
And I saw

You were just the moonlight  
And the moon belongs to  
No one, no one,...
