

# Virgin Steele, Wild Fire Woman

[Music: De Feis/Pursino, lyrics: De Feis]

Meet me in the darkness  
Upon the edge of town  
I'll be waiting there in silence  
Let your long hair flow on down  
It doesn't matter what went wrong  
It doesn't matter anymore  
Just hold me in your love child  
We'll open up the door

I've waited a lifetime (babe)  
For the answer  
(A love without war)

[Chorus:]  
Wild Fire, woman of mine  
With your head in the clouds  
And your heart on the line  
Wild Fire, she's a woman in love  
With a passion that burns  
like a (river of love)

Don't tell me that tomorrow  
Won't right you on your way  
Above the realm of sorrow  
A new dawn breaks today  
I still want you by my side  
Wanna have you near  
Just hold me in your love child  
There won't be any fear

[Pre-Chorus]  
(To ride with the wind)

[Chorus]  
(heaven above)  
... Oh, my babe...  
Meet me in the darkness

On the edge of town.
