

Virginia Coalition, Come and Go

Went down to the coastline for nearly forty days
Strangled by the sun, but I never lost my way
Went down to the coastline
Lord, I nearly lost my mind
I keep walkin' on pretty baby, never look behind

Still I
Come and go day by day
Troubles keep gettin' farther and farther away
Come and go day by day

Went down to the riverside
Lord, I nearly drowned
You took me by the hand, led me to higher ground
That's why I love you, I always told you so
Walk another mile with me baby, I'll never let you go

Now but still I
Come and go day by day
Troubles keep gettin' farther and farther away
Come and go day by day

I ask you onlooker, "Do you think my pride is just?"
To stop will be the death of me, go on I must
I ask you onlooker "Do you think my pain is small?"
I look back on the problems now
They weren't even there at all
