

# Virginia Coalition, E Song

Oh, now little girl, don't cry yourself to sleep  
There's a brand new world around you  
You can make it if you try  
She said the trying's not enough  
Sometimes it gets to me  
I see people where they're not supposed to be

She thinks about dying  
She is verging on the sacred  
She is spinning with the sound  
She has long ago abandoned  
Any other way around  
She is verging on the sacred, spinning with the sound  
She is gone but not forgotten,  
Here but not around

Oh, now little boy, don't cry yourself to sleep  
There's a brand new world around you  
And you can make it if you try  
He said the trying's not enough  
Sometimes it gets to me  
But you weren't supposed to see this side of me

He thinks about flying  
He is verging on the sacred  
He is spinning with the sound  
He has long ago abandoned  
Any other way around  
He is verging on the sacred, spinning with the sound  
He is gone but not forgotten,  
Here but not around

Oh, now, I'm not going to cry myself to sleep  
Take a look around you  
We've got a brand new world around  
Just open up your eyes and see  
The wonder that is me  
And she says what is that supposed to mean?

I wish I knew  
We are verging on the sacred  
We are spinning with the sound  
We have long ago abandoned  
Any other way around  
We are verging on the sacred, spinning with the sound  
We are gone but not forgotten,  
Here but not around

We are verging on the sacred  
We are spinning with the sound  
We have long ago abandoned  
Any other way around  
We are verging on the sacred, spinning with the sound  
We are gone but not forgotten,  
Here but not around

We are gone but not forgotten  
We are gone but not forgotten
