

# Virginia Coalition, Valentine Eraser

Another story make believe  
Beneath the boy who's scared to see  
It's hard to feel a moment before it's gone  
Guarded words they tend to scream  
They act as if they've never been  
It's hard to hear with the stereo on

But give it just a little more time, she said  
Give it just a little more time  
Take another turn, we got money to burn  
Give it just a little more time

Hit 'em when they're wide awake  
And wonder how she's gonna take  
It's hard to say, she's changin' every day  
I hope that you don't ever find this valentine eraser  
It's hard to hear with the stereo on

But give it just a little more time, she said  
Give it just a little more time  
Take another turn, we got money to burn  
Give it just a little more time

Valentine eraser (valentine eraser)  
Valentine eraser (valentine eraser)

She don't see the problem here  
She don't know what's goin' wrong  
It's hard when it's as deep as it was long  
Another girl has come and gone  
Her child is born without her  
It's hard to hear with the stereo on

But give it just a little more time, she said  
Give it just a little more time  
Take another turn, we got money to burn  
Give it just a little more time

Aw, but give it just a little more time, she said  
Give it just a little more time  
Take another turn, we got money to burn  
Give it just a little more time
