

# Visage, The Damned Dont Cry

A blade in the back, don't please attack  
A knife in your back, won't fight back  
A blade in our back, go go attack  
A knife in your back, please fight back  
Harder they come run boy run  
Fight fight stand by your rights  
He's too young to die, he hopes but still tries  
And that what a rebel cried

Chorus:

Only the good die young  
Only the good die young  
Survive staying alive  
Alive we will survive  
Only the good die young  
Crawl into a coffin six feet in the ground  
Down down don't want him around  
Don't break his bones find he's not stone  
You know you'll never hurt him  
Stronger they come they think they have  
But no they haven't killed him  
Life without time, that just a crime  
A life time without mercy  
You said to achieve it's not just a dream  
But the good die young

Chorus

Fade...
