

# Vision Of Disorder, Rebirth Of Tragedy

rebirth, what the fuck did you think you would see  
a burnt out complexion staring at me  
rebirth of tragedy  
you've been tripping, I've been growing  
deeper inside i feel like this in me  
I've lived it, I've been it,  
the addict you've become  
so what you got for me  
scraping the plate  
I always knew you'd come,  
I always knew you'd fall on down  
collision of the blue lights the drag  
deeper comes the ring in my eyes  
I think I'm seeping out of my skin  
you know it's all a part of my head  
came down, you came down  
scraping the plate  
rebirth of tragedy  
the mouths move wtih no voices  
I smeared your face again  
my face against the wall  
I've been coming far too close  
so what you got for me  
scraping the plate  
I always knew you'd fall..  
down
