

Visqueen, Crush On Radio

Circuitry has soldered me like fuses to a frame
A tiny dial, and love erupts on broadband

Talk to you through speakers
Shining deep inside my veins
You're nationwide
But I'm the girl who loves you

You'll stay as long as I press play

Secretly you'll come to me through pages black and white
Top 40 charts, and plastic parts in my hands

Talk to you through speakers shiny underneath my bed
You're nationwide
But I'm the girl who wants you

You'll stay as long as I press play

But then you'll hit record and you're out the door anyway
Our whole relationship is a cd skipping away

Crush on radio

Digital heart guardian romantic in the wire
You're kissing me
Through frequencies unheard of

But I'll talk to you
Through speakers pushing deep into the red
You're nationwide
But I'm the girl who needs you

You'll stay as long as I press play

But then you'll hit record and you're out the door anyway
Our whole relationship is a cd skipping away

Crush on radio
