

Visqueen, Sailor

If I owed you better days in your mind
You'd see that better days were behind
You should know it's conscience time again

Sailor
You're one time a minute,
one time a minute
Oh Sailor

You'll feel better
Stand on your own
You'll feel better
but you're going to be alone
You should know it's conscience time again

Find a way for me now

You'll feel better
Stand on your own
You'll see better
but you're going to be alone
You should know it's conscience time again

Sailor
You're one time a minute,
one time a minute
Oh Sailor
