

Vitamin C, She Talks About Love

Once in a lifetime....

Down at the end, the end of the line
There's a girl who waits for love
She is the one he's hoping for
But there's another one she's thinking of
She doesn't know his name, doesn't know his face
She'll recognize the feeling in any case
She'll be swept away by the flies inside
Make her beautiful, make her come alive

She talks about love, nobody listens
She talks about love, nobody cares
She talks about love, nobody listens
She talks about love, she believes in love

She falls and she falls but never laughs
In the arms of the one she wants
Fights for a dream she's never seen
In a world of rocks and stones
And she knows it's there, knows it does exist
A feeling oh so real, almost divine bliss
Takes her breath away, a gem beyond compare
Makes her weak in the knees, she knows that love is rare

She talks about love, nobody listens
She talks about love, nobody cares
She talks about love, nobody listens
She talks about love, she believes in love

The measure of time
Will prevent what's mine
She believes in once upon a time
Once in a lifetime

She talks about love, nobody listens
She talks about love, nobody cares
She talks about love, nobody listens
She talks about love, she believes in love

She talks about love, nobody listens
She talks about love, nobody cares
She talks about love, nobody listens
She talks about love, she believes in love
