

Viva Voce, They Never Really Wakeup

Each morning when they wake up
They never really wake up
They never really get it right

Each morning when they wake up
They never really wake up
They never really get it right

Each morning when they wake up
They never really wake up
They never really get it right

Each morning when they wake up
They never really wake up
They never really get it right

Each morning when they wake up
They never really wake up
They never really get it right

Each morning when they wake up
They never really wake up
They never really get it right
