

# Vixen, Give It Away

I can tell your love's the kind that'll burn me alive  
Cause the way you dance, has set the place on fire  
Everybody's watching, you've got 'em mesmerised  
You ain't gonna go home alone tonight

All around the world  
Lovers have come and gone  
All around the world  
Whether it's right or wrong

You better get ready, get ready to give it away tonight  
You better get ready to give it away

Can't you tell the night is full of mystery  
I can see desire burning in your eyes  
I know something dangerous is close to me  
Someone wild is screaming in the night

All around the world  
Lovers are playing games  
All around the world  
It's driving me insane

You better get ready, get ready to give it away tonight  
You better get ready to give it away tonight  
You better get ready to give it away

All night, alright, hold tight  
Alright, all night, alright

(Solo)

All around the world  
Lovers are playing games  
All around the world  
It's driving me insane

You better get ready, get ready to give it away tonight (x2)  
You better get ready to give it away tonight (x2)  
Get ready to give it away  
Get ready to give it away tonight
