Vixen, Not A Minute Too Soon

I was pretending it was easy alone
I built a fortress to keep out the unknown
Surrounded myself with the walls of rejection
Trapped in the dungeon for my own protection
Your smile came shinning through so pure I knew

REPEAT:

Not a minute too soon Your love came through for me You are the water in my desert Not a minute too soon Your love got through to me You rescued me just in the nick of time

Time after time I threw my heart away My faith was fading fast day after day I had enough of giving in I couldn't lay down my pride So love just pushed me aside Your kisses washed away my thirst Every touch felt like the first REPEAT

In this angry world I thought loneliness would shelter me My broken spirit cried in vain Till you set me free

REPEAT
