

# Vixen, Waitin'

You caught my eye and I will never be the same  
I'm ready, I'm willing, I'm anxious to know your name

Could you be tempted to give me a chance  
And a few other things I need to know: do you love and leave 'em?  
When you got them believin' that you'll never go

Chorus:

Oh you, you keep me waiting, waiting for you  
Anticipating, what can I do  
You keep me waiting, I never knew that I'd still be waiting

I wish you'd realize when we can convice  
Ah tell me, please tell me, you wanna know what's really here inside  
Is it love there in your eyes, or is it just a lie

chorus - waiting for you

(Solo)

I see lyin' in your eyes, and now I realize that

You, you keep me waiting, waiting for you  
Anticipating, think we're all through  
You kept me waiting, I never knew that I'd still be waiting

You, you keep me waiting, anticipating  
You kept me waiting, waiting for you
