

# Vixen, Wrecking Ball

You don't need a special invitation  
to come to the blow-out party of a nation  
The big one's been set up for tonight  
Wreak a little havoc till the place is a sight

No more reason to be pleasin',  
rocket blast, rock it down, rock on 10  
Tomorrow might never come again

Chorus:

Let's have a wrecking ball -  
really tear it up  
Let's have a wrecking ball -  
a little rough and tough  
This is it - last call -  
let's raise hell until the walls fall  
Let's have a wrecking ball

Abandon all morality,  
anything goes, got nothin' to lose but your sanity  
The finger's on the button, this is your last ride  
It's an "E" ticket with the devil by your side

Missiles burning, sky is turning,  
grab it up, rip it hard, take a bite  
You might not see the morning light
